Contents

Electronics and Optics

Photoreflectance characterization of InAlGaAs molecular beam epitaxy layers and quantum wells 1
C. Cacciatore, D. Campi, C. Coriasso and C. Rigo (Turin, Italy) and C. Alibert (Montpellier, France)

On the high reflectance bands of two- and three-layer dielectric systems . . . 9
L. Jankowiak and Z. Leś (Cracow, Poland)

Dielectric properties of electron beam evaporated samarium oxide films . . . 15
M. K. Jayaraj and C. P. G. Vallabhan (Cochin, India)

Feasibility and electrical properties of 600 °C thermal silica layers for thin film tranśistor applications 21
G. Sarrabayrouse, P. Taurines, E. Scheid, D. Bielle-Daspet and A. Martinez (Toulouse, France)

Preparation of waveguiding multimode layers by field-assisted Na–Tl ion exchange in the crown flint glass KF3 29
C. Kaps and H. Kahnt (Jena, F.R.G.)

Metallurgical and Protective Layers

Interface study of TiN- and Ti–TiN-coated stainless steel AISI 304 with asymmetric glancing angle X-ray diffraction and classical Bragg–Brentano X-ray diffraction 37
C. Quaeyhaegens, L. M. Stals, M. van Stappen and L. de Schepper (Diepenbeek, Belgium)

X-ray elastic constants, stress profiling and composition of physically vapor deposited ZrN films 47
R. Y. Fillit (St. Etienne, France), A. J. Perry and C. Strandberg (Troy, MI, U.S.A.)

Adhesion of hydrogenated amorphous carbon films on silicon substrates and its enhancement 57
M. Wang, X. Jiang and B. Stritzker (Jülich, F.R.G.)

Hole formation in thin aluminium films under controlled variation of strain and temperature 67
N. Kristensen, F. Ericson and J. -Å. Schweitz (Uppsala, Sweden) and U. Smith (Stockholm, Sweden)

Preparation and Characterization

Influence of the nature of the interface on the spin wave resonance spectra of single-crystal nickel films. 85
A. A. Hussain (Ste-Foy, Que., Canada)

Cadmium telluride thin films on silicon substrates 107
T. C. Kuo (Syracuse, NY, U.S.A.), Y. T. Chi (Rome, NY, U.S.A.), J. Beasock, P. K. Ghosh and P. G. Kornreich (Syracuse, NY, U.S.A.)

Reactive-sputter-deposited TiN films on glass substrates 117
J. Pelleg, L. Z. Zevin and S. Lungo (Beer Sheva, Israel) and N. Croitoru (Tel Aviv, Israel)

Correlation between structural and electrical properties of sprayed tin oxide films with and without fluorine doping 129
J. Bruneaux, H. Cachet, M. Froment and A. Messad (Paris, France)

Thermal oxidation study of thin magnetite-based coatings from iron–chromium alloys 143
L. Aries, M. El Bakkouri, J. Roy, J. P. Traverse, R. Calsou and R. Sempere (Toulouse, France)

Annealing effects on molecular orientation in evaporated films of *n*-paraffins. 157
K. Fukao (Kyoto, Japan), H. Kawamoto, T. Horiuchi and K. Matsushige (Fukuoka, Japan)

Formation of $TiSi_2$ from titanium and amorphous silicon layers for local interconnect technology 169
A. A. Bos, N. S. Parekh and A. G. M. Jonkers (Eindhoven, The Netherlands)

Auger electron spectroscopy study of cleaved and sputter-etched $In_{0.53}Ga_{0.47}As$ surfaces 179
S. Valeri, A. Di Bona and E. Angeli (Modena, Italy), S. Bordiga and A. Piccirillo (Torino, Italy)

Preparation and properties of zirconia coatings from aquo-organic solutions of zirconyl chloride octahydrate 187
A. K. Atta, P. K. Biswas and D. Ganguli (Calcutta, India)

Études sur la croissance, la structure et al composition de couches minces de ZnO et ZnO dopé a l'indium, obtenues par procédé pyrosol 195
A. Tiburcio-Silver, J. C. Joubert and M. Labeau (St. Martin d'Hères, France)

Hot plasma box glow discharge reactor for production of uniform films of hydrogenated amorphous silicon alloys 215
D. M. Bhusari, L. Kale, A. Kumbhar, S. Sabane and S. T. Kshirsagar (Pune, India)

Dislocation structure of Ni/Ag interphase boundaries 225
T. A. Bamford (Wilkes Barre, PA, U.S.A.)

Structure and chemical composition of W–C–(Co) sputtered films 237
A. Cavaleiro and M. T. Vieira (Coimbra, Portugal) and G. Lemperière (Nantes, France)

Coating of steel by plasma-activated metal–organic chemical vapour deposition in the Si–C system 257
M. Lelogeais and M. Ducarroir (Perpignan, France)

Infrared and ellipsometric studies of reactive-ion-beam-sputtered hydrogenated amorphous silicon (a-Si:H), germanium (a-Ge:H) and Si–Ge alloy (a-$Si_{28}Ge_{72}$:H) films—a correlation 269
M. K. Bhan, L. K. Malhotra and S. C. Kashyap (New Delhi, India)

Investigations of TiO_2 films deposited by different techniques 279
K. Bange, C. R. Ottermann, O. Anderson and U. Jeschkowski (Mainz, F.R.G.), M. Laube (Frankfurt, F.R.G.) and R. Feile (Mainz, F.R.G.)

Exchange constant and surface pinning in single permalloy films 287
A. Z. Maksymowicz (Cracow, Poland), J. S. S. Whiting, M. L. Watson and A. Chambers (York, U.K.)

The deposition and microstructure of broad beam, ion-sputtered titanium nitride coatings 293
C. V. Cooper and R. A. Wagner (East Hartford, CT, U.S.A.)

The kinetics of formation of intermetallics in Ag/In thin film couples 303
R. Roy and S. K. Sen (Calcutta, India)

Langmuir–Blodgett and Related Films

Dark electrical conduction in plasma-polymerized acetonitrile 319
B. A. Suleimanov, M. M. Akhmedov, Y. I. Suleimanova and M. K. Kerimov (Baku, U.S.S.R.)

Stability of Langmuir–Blodgett film/alumina, and Langmuir–Blodgett film/gold multilayer structures 327
T.-S. Zheng, L.-Y. Liu, Z.-J. Xing, W.-C. Wang, Y.-H. Shen and Z.-M. Zhang (Shanghai, China)

Organic-thin-film-induced molecular epitaxy from the vapor phase 335
M. K. Debe, R. J. Poirier and K. K. Kam (St. Paul, MN, U.S.A.)

Surface potential studies of the thermal behaviour of insoluble carboxylic acid monolayers on solid substrates 349
D. Vollhardt and A. Seeboth (Berlin, F.R.G.)

In situ observation of vacuum deposition process of 10-(1-pyrenyl) decanoic acid by fluorescence measurement 357
A. Itaya, S. Takada and H. Masuhara (Kyoto, Japan) and Y. Taniguchi (Tokyo, Japan)

Surface characterization study of InP(100) substrates using ion-scattering spectroscopy, Auger electron spectroscopy and electron spectroscopy for chemical analysis I: Comparison of substrate-cleaning techniques. 367
S. J. Hoekje and G. B. Hoflund (Gainesville, FL, U.S.A.)

Condensed Matter Film Behaviour

Simple model calculation for ion-beam-enhanced deposition 381
J.-K. Zhou (Shanghai, China), D. Fink and J. P. Biersack (Berlin, F.R.G.), G.-Q. Yang, B.-Y. Jiang, X.-H. Liu and S.-C. Zou (Shanghai, China)

Variable diffusion coefficient in ZnSe films grown on GaAs(100) 393
T. Muranoi (Hitachi-shi, Japan)

Author Index 397
